CALF CLUB MEMBERS RECEIVE HONORS AT DISTRICT SHOWS

ST. ALBERT.—The annual Ray Calf club show was held on June 13 at the farm of Prudent Borle. The event opened at 11 a.m. with the club members joining in a judging competition.

The 17 calves were then shown and the judging was done for the placing of the calves and for showmanship. The champion calf was owned by Harold Borle and the reserve Champion by Dave Terrault. The first place in showmanship was won by Douglas Brown and the second by Leslie Brown. The calf making the biggest daily gain was owned by Alice Terrault and shown by Beatrice Terrault.

Representatives of the Morinville Municipal Council who attended the show were Mr. O. Patry and Mr. S. Walker.

The following day the calves were exhibited in Edmonton at the sale held by the clubs from Fort Saskatchewan, Gibbons, Lamont Ray, and St. Lina. There the two best calves and two best showmen from each club again tried for top honors. The calf owned by Harold Borle was chosen grand Champion and Hilda Behn from St. Lina received Reserve Champion. Don Schmaltzhauser from St. Lina received first for showmanship and Lesley Brown second.

The members felt they owe a debt of gratitude to their D.A., Mr. J. M. Fontaine, club leaders Mr. C. Borle and Mr. H. Terrault, and Mr. Mel Brown as well as all parents and neighbors who showed such great interest. Also to German Borle and Melvin Borle, the truckers and Mr. P. Borle for the use of his farm yard and home.

They also wish to thank the following for their generous donations: Volmer Store, Soetaert and Keener, Morinville Dry Cleaners, Raley's Jewelry, Morinville Machine Shop, Massey-Harris dealer, Morinville Hardware, J. H. Perras, C. Charest, Ford and Monach Dealer, A. A. Steffes, Armand Chalfoux, Alberta Hotel, Eddie Lefebvre Trucking, Krauskopf Bros John Dear dealers, Henry Therberge Garage, Morinville Hatcheries, Morinville Motors, Tremblay Garage, Beaver Lumber, O. Casselin, Confectionary, Latourneau Building Supplies, Martel Electric, Blue Bird Cafe, Labante Meat Market, Isadore Houle Meat Market, Morinville Hotel McCall Electric, Steffes Lumber, G. M. Matland, Morinville Municipality, Dymitro Shoe Shop, H. Terrault, M. Brown, C. Borle, L. C. McLeod, M. Sheehan, Mary Fitzgerald, A. E. Roy, A. M. McRae, Walter Elliott, George Soetaert, Allan Brown, Alex Guineau, Emile Terrault, Albert Soetaert, Prudent Borle.

Bridge Club Holds Final Party

ST. ALBERT.—Ladies of the bridge club had as their final party of the year, Tuesday, May 13, a visit to a show in Edmonton and a supper at the new Mandarin Gardens. Those present were: Mrs. Belhumeur, Mrs. Ross, Mrs. Sumner, Mrs. Laderoute, Mrs. Blair, Mrs. Lamer, Mrs. T. Barry, Mrs. L. Barry, Mrs. H. MacDonald, Mrs. G. Gaulin, Mrs. Rosengren, Miss Wollewiecz, Miss Ross, Mrs. Cuts, Mrs. Atkins, Mrs. Maheux.

A new building is being erected on the lot north of Miss Wollewiecz's place.

Main Street Hardsurfacing May Be Completed

MORINVILLE.—Recent meeting of town council was called to order by Mayor Soetaert. All six councillors were present.

On motion of Mayor Soetaert a letter was directed to be sent to the MD of Morinville requesting them to remove the obstruction recently placed in the ditch immediately east of the town of Morinville, as soon as possible.

It was moved by Lucien Letourneau and carried that steps be taken to borrow the sum of \$15,000, by sale of debentures to complete the hard-surfacing of the main street.

The minutes of the last meeting of the Board of Trade were read. The question of declaring the 19th day of June a civic holiday was discussed and after careful consideration it was decided against.

Flower Time in Canada's Capital

Calm dignity and inviting beauty are combined in this scene of the peace tower on Canada's Parliament Hill and its border of colorful tulips. Nearly half a million tulips bloom each year in the nation's capital.

Large Audience Present At School Graduation Party

ST. ALBERT.—A graduation party was held at the Junior school on Friday, June 16. Principal T. Tetreau opened the evening program with the following address:

"Greetings to Superintendent Scott, Mayor Ross, ladies and gentlemen, and high school students—We are gathered here this evening for an enjoyable social event. It is with great pleasure that I see the parents of the high school students. This evening has been set aside for your children. The program that will follow the presentation of awards is made as varied as possible in order to satisfy all the tastes.

Before proceeding further, I want to thank the various organizations and individuals who so willingly helped with the presentations and I do feel indebted to each organization for the awards offered.

Without further delay I will call on the WI representative, Mrs. Atkinson, to present the first award to Melba Borle for editing the St. Albert school paper.

Since Easter, the paper has been very active. We have had so many events that occupied so much time that Mr. Raboud has ignored the publication of the paper. In the coming school year, however, we are planning a weekly publication, smaller, more concise, printed on better paper, and regularly."

Mr. Tetreau then mentioned the award to Roy Sylyski but due to his absence it was not presented.

"In a school the executive of the Students' Union held a very important position as far as the students are concerned. During the last two years we have just begun to organize. By no means has the Students' Union reached its maximum efficiency yet. As the H.S. expands so will our Students' Union.

The policy in this school is not dictatorial and the purpose of the school union is to make known the desires of the student body.

Mr. Atkins, on behalf of the community league will now present Chester Cunningham with the award of "the outstanding athlete of the year."

The task of singling out one student was not easy. We have several students who are remarkably noted for their athletic abilities. Mr. Raboud will discuss this, later.

In order to foster interest and competition in sports in general the Students' Union and staff were glad to donate a certain amount of money to the winners of the various competitions. I will now ask Mr. Raboud to explain these and to present the awards.

Team winners in boys' softball, \$5.00.

Team winners in girls' softball, \$5.00.

Team winners in girls' volleyball, \$5.00.

"Now that we have disposed of sports we will return to something more serious. I take pleasure in asking Mrs. Maheux, on behalf of the Altar Society, to present Lucille Morin the award for proficiency in religion.

"The next awards are those for outstanding co-operation in school and in extra-curricular activities. Boy—Rene Brodeur.

Girl—Joyce Atkinson."

Mr. Curial made the presentation on behalf of the Home and School.

Mr. G. Gaulin on behalf of the local school board.

"And now, ladies and gentlemen, we come to the most important of all awards, the H.S. academic awards. The academic awards are given to students who have given the best work during the year. The students have shown their steadiness, their willingness to work. They have taken school seriously. I take great pleasure in presenting Geraldine Maheux with the Grade X academic award."

Mayor Ross presented Bill Boeck with the Grade VI award.

Supt. Scott presented the Grade XII award to student Helem Le.

Mr. Scott then outlined to the parents the present predicament of St. Albert. He assured the group that there would certainly be a complete H.S. course offered in St. Albert in the fall of 1950. He thanked the various organizations and the staff for their noble efforts.

While presenting the awards we have mentioned a number of students who have done special work, or who are outstanding in some way. There are, however, many

AGRICULTURE SERVICE BOARD MEETS TO DISCUSS FARM PROBLEMS

Year's third meeting of the Morinville Agricultural Service board was held in the council chambers at Morinville June 15 with S. M. Walker in the chair. Board members present were John Schafers, H. E. Mirus, J. M. Fontaine, Walter Ellett and J. O. Patry.

The Morinville Board of Trade was represented by Mrs. R. Martel, J. Truscott, M. Milner and C. C. Lavallee; also present were Miss Ruth Whaley, district home economist from the Department of Agriculture, Mr. Laub from the firm of Laub & Borton, plumbers, F. Meunier and Nap. Douzich.

T.B. Threat

Discussion in regards to have the district established as restricted area for the eradication of bovine tuberculosis and a pure bred sire area, and the petitions being circulated regarding the same, were taken by the board; a number of petitions have been received at the office; the work is to be continued and the areas reviewed by the board in which further petitions will be required.

Letter dated April 29, as mailed from the office was read to the board, as well as the reply as received from the water resources branch dated May 2, 1950.

It was moved by Chairman Walker and carried, that this matter be tabled, as the question has been taken up with the said board by the council of the municipality.

Field Day

Those present were advised by the chairman that the farm and home improvement field day that was postponed from June 5 to June 19, has again been postponed to an indefinite date and gave as reasons for the said postponement that there would be certain expense involved that

the companies taking part were not willing to absorb.

While this was not true with all it was with others, one company being specially mentioned. Mr. Fontaine spoke on the day as (Continued on Page 10)

Jean Tournier Passes Away At 68

LEGAL.—Mr. Jean Tournier of Legal passed away at the age of 68 years. Mr. Tournier was a resident of Legal. However he was working in St. Albert where he passed away.

Mr. Leo Mercier our barber, is in hospital undergoing throat operations.

Mrs. A. Pare, Mrs. J. Pare and Mr. E. Theroux have for a visit, their sister who is a nun from eastern Canada.

When this paper reaches you Miss Fernande Prefontaine will have wed Mr. W. Van de Walle on Tuesday, June 20. Attending the bride as bridesmaids are Miss Laurette Belley and the bride's sister Madeline Prefontaine.

Mr. Mercier and Mr. Sequin have returned from Oshawa with two truckloads of new cars.

Mr. and Mrs. Henri Brisson, Mrs. P. Brisson, Mrs. P. Mercier and Louise left on Sunday to spend some time holidaying in Banff.

You are cordially invited to come one and all to the parish picnic to be held on July 9. If you are interested in winning a bicycle, radio or floor lamp, tickets may be acquired from CYO members or the school children.

City Within a City

On a blustery day early in the New Year, a big TCA North Star airliner settled down on the Edmonton airport, and out stepped L. E. Detwiler, representative of New York's First New Amsterdam Corporation.

With him Detwiler brought plans for the greatest civic development program ever attempted in Canada—a virtual city within a city. Dubbed the "Miracle Mile" project, it would include modern office skyscrapers, auditorium, vast parking facilities and other commercial and cultural facilities.

Estimated cost of the project is about \$25,000,000, and the corporation represented by Detwiler is seeking certain tax concessions, a 99-year lease, in return for which it promises to erect the project, and pay the city a liberal yearly rental.

The Detwiler deal is the luckiest proposition that ever fell into Edmonton's lap. Citizens, business leaders, and the city administration should bend every effort to see that the Miracle Mile becomes established reality, and not just a dream.

Alexander Botts On a Diet

By T. W. PUE

Readers of this column may ask the question: Who is Alexander Botts?

That's a good question. Alexander Botts is my favorite fiction character, and stories about him appear from time to time in the Saturday Evening Post, authored by William Hazlett Upson.

Botts is a screwy travelling salesman for the Earthworm Tractor Company who always starts off in the narrative in one heck of a situation, far from head office. He wires frantically for small sums of \$50,000 or more to Gilbert Henderson, the nit-wit sales manager of the company. No matter how difficult his plight, however, Botts never gets any co-operation from Henderson, but always pulls out of his troubles, and ends each adventure with the sale of at least a dozen of those inimitable Earthworm tractors.

T. W. PUE

So writes author Upson, and I never fail to get a kick out of these stories. Reminds me of the situations I've run into in my travels. I recall how I wired frantically from Quebec City to head office of McFadden Publications in New York when the local dealer threatened to throw me out on my ear the next time I called to tell him my franchise was terminated. Like all travellers, I suppose, I've had a lot in common with Alexander Botts—and his creator, Upson, who was a traveller once himself.

Upson On Diet

This man Upson probably still travels, but having hit pay dirt in the columns of the wealthy Curtis Publishing Company, will never likely go back on the road as a travelling salesman. He has lots of money in his pocket and lots of time to sit around in railway club cars and luxurious hotel lounges to dream up further adventures for Alexander Botts. And in sitting around, Mr. Upson and his companion, Mrs. Upson, found themselves time to load up with excess food and excess weight.

They tried many schemes for reducing. Like going on a starvation diet and being hungry all day, taking exercise which only worked up their appetites more and made them eat more than ever, and so consequently they added more weight and grew fatter still.

Digging a Grave

You could say that Mr. and Mrs. Upson were digging their graves with their teeth. Overweight people die sooner than thinner folk. The fatter you get, the harder strain you put on your heart and other organs. These wear out sooner—and so the obese person dies sooner, and has, you might say, dug his grave with his teeth.

Upson says he wasn't willing to exercise nor to go around hungry all day, day after day. So he decided to eat only certain kinds of food, eat all he could and still lose weight.

Quality, Not Quantity

The kinds of foods the Upsons eat make all the difference. They avoid foods with sugars, starches and fats. Eat plenty of fruits, most vegetables such as spinach, lettuce, cabbage, etc., and all the lean meats they want.

Bread, pastries, cake, potatoes, butter, cream, fat meat isn't on the Upson diet until—and here's the wonderful part of it all—they find themselves actually underweight! They have to eat a few starchy foods to gain weight.

As one who is consistently overweight, this sounds like a smart system to lose weight and not suffer for it.

I'm going to try it—and if it works! I'll report the results some weeks hence in this column.

If it doesn't—I'll hang my head down around my big spare tire of a middle and never mention dieting again.

The Lighter Side

An Eye For a Bargain

Uncle Si (in from Podunk)—And you say that everything in the store is just five and ten cents? Floorwalker—"Yes, everything."

'Hire' Mathematics

Letters to the Editor

SHE'S ASTONDED

Dear Sir—I was astounded when I read in a recent edition, the letter from a Hardyman man who stated, and I quote: "Canadian females are 100 per cent barflies and will take a man for every cent he has." Also that he prefers European women.

I respect his views as he is merely expressing an opinion, but frankly I disagree entirely.

I feel safe in saying that Canadian women compare very favorably with any European women. Certainly they have the charm, loveliness, intelligence and affection any foreign woman has.

Canadian women have proven this. How? What made Canada such a fine nation? What attracted foreigners to come to Canada if it isn't one of the best countries in the world?

The people of Canada made it wonderful and surely you can't tell me that the men did it all. It was the patience and encouragement of Canadian women that made for the development of a country in which our friend now dwells.

Everywhere there are girls who do not come up to this standard but individual values are discarded in this estimation of women of Alberta.

That is my opinion and I'm very proud to be, as all girls who have that privilege, a member of the fairer sex of Alberta.

YVONNE GAMACHE.

Morinville.

"AM I MAD?"

Dear Sir—I've just read that letter claiming that Canadian girls are all barflies, and am I mad!

There will never be an absence of politics in a democracy but there can be a minimum of it.

A bargain should include quality at reduced prices; inferior goods are never cheap.

One trouble with a democracy is that too many citizens suffer from mental paralysis.

It is rare for a strong, healthy man to appreciate the plight of someone who is in ill health.

Has he inspected all its women, or just the ones in his favorite bars? I happen to be the kind of "nice" girl he says does not exist any more. And I wish I could say just what I think of his silly, prejudiced attitude—but as I said, I'm a nice girl and can't use such words.

Edmonton T. M.

DISGUSTING!

Dear Sir—As an army wife, yet, let me say you're one of the most vile, disgusting specimens of man I've ever read about. What's the matter, revolting—wouldn't any body have you?

Lae la Biche K. T.

NO UNCLE OF HIS

Dear Sir—I protest the habit of many writers in American periodicals, calling Joe Stalin (or whatever is the name of the Russian dictator) by the friendly title Uncle Joe? Is there anyone who doesn't know that since Hitler committed suicide that this "Uncle Joe" is the world's most cold-blooded murderer, liar and atheist? Would you want him for an Uncle? Then why the title? Mayerthorpe J. H. L.

LIKES COLUMN

Dear Sir—I am writing to say how much I like Eva Crummy's column. She has a good item in every time she writes. I liked her viewpoints on cleaning up the mind, as well as the foolish buying people do. The greatest need in the home is good clear reasoning and thinking. Many a home hasn't got that.

South Edmonton MRS. J. K.

Notes and Comment

You can never tell when a little careful driving will save your life on the highway.

There will never be an absence of politics in a democracy but there can be a minimum of it.

A bargain should include quality at reduced prices; inferior goods are never cheap.

One trouble with a democracy is that too many citizens suffer from mental paralysis.

It is rare for a strong, healthy man to appreciate the plight of someone who is in ill health.

Just what will be the advantage if the scientists are right and we are able to travel to Mars?

An expert is a man who writes for a newspaper, published in a town where he is not known.

It is remarkable what some people will do for publicity, even when most of it is worthless.

Business seldom expands by magic—it usually grows because somebody with brains is working.

The man who puts money above everything else will find, some day, that money is above everything else.

Person-to-Person Advertising

Whether you, as a businessman, claim to believe in advertising or not—you can never actually halt advertising of your firm. You can only suspend that part, such as newspaper advertising, over which you have direct control.

In ever-increasing volume, the part you do not and cannot control will roll on: the advertising created by idle tales, by mis-information and actually by the fact you may not be providing any information at all, to those with whom you want to do business, will travel fast by swift gossip.

If you advertising springs from misinformation, it can do you harm. You can control it, in a very small way, by person-to-person contact. But you cannot hope to reach all the people you should in the course of one week. Chances are, you reach only those who are favorable to you to start with—and your advertising greets only those whom you already have as customers.

The local newspaper, serving the farmers and townfolk in your community, is designed to meet your advertising needs in the best way, next to person-to-person contact. You can, for a small weekly fee, create a favorable impression among the hundreds of readers of this, your local newspaper.

Person-to-person, and community newspaper advertising can build your business.

SHAME OF ALBERTA

Royal Commission Should Investigate Fort Prison

Compiled by Staff Reporters

A Royal Commission is needed to investigate conditions at Fort Saskatchewan. That, in brief, is the findings of this newspaper in unearthing what promises to be one of the most explosive stories in Alberta's history.

In the 35 years in which Fort Saskatchewan has been operating, thousands of men and women have served terms of imprisonment behind its iron bars and concrete walls.

What effect has it had on them? What has been their attitude after being released from prison?

The attitude of most released prisoners is one of hate, lawlessness, and a burning desire to 'get even' with society for what they consider an injustice. Injustice for being sent to jail? No, injustice in their treatment while there.

In 1948, a young Edmontonian, veteran of two and a half years service in the Royal Canadian Navy, was sentenced to an 18 month term in the Fort, after being found guilty of false pretences.

Signed Testimony

While at Fort Saskatchewan, his health was poor, being a man of slim stature (about five foot ten, 135 pounds), with poor teeth and eyesight.

Here is his testimony, as presented in a signed statement to this newspaper:

"... I was accused by Warden McLean of fomenting a riot at Fort Saskatchewan. This was not true. . . . I was seized by McLean by the hair and hauled from a hallway into his office. I was given no opportunity to answer to the charges against me, despite the fact that British tradition demands that a person accused of a misdemeanor or crime shall be allowed an opportunity to testify in his own defence.

"McLean was using foul and filthy language, and jabbering in an almost unintelligible manner. Simultaneously a Mounted Policeman secured my hands behind my back with some sort of rope or belt.

"I was held in McLean's office for about ten minutes, during which time he continuously pulled my hair and clouted me. He appeared to be almost hysterical. When he was about played out he instructed Deputy Warden Holt to throw me into the condemned cell, referred to me as a bastard, and told Holt to take away my clothes, lock the door, throw the key away, and forget about me.

"I was taken to the condemned

cell . . . a few minutes later Holt and some others returned, and took me back to McLean's office.

Living Hell

"... I was informed I had lost 30 days remission (good time), although I had not been informed of what charge I was guilty of, and had been given no opportunity to say anything in my defence.

"I was then returned to the condemned cell . . . Deputy Warden Holt told me that I was going to be made to suffer, even if they had to kill me to do it.

"No blankets of any description were supplied me during the week I was kept in the death, or condemned cell. No water was supplied to me during the daytime, as the water is controlled from outside the cell, nor was it possible to flush the toilet during the daytime."

There, for all to see, is the signed testimony of one who endured over a year of living hell!

Awful Life

Inmates live in small cells, stiflingly hot in the summer, cold and practically unheated during the winter, sleep on straw cots, work in sub-zero weather in insufficient clothing, go without proper medical attention, and live on practically, and sometimes actually, rotten food.

New Appointment

In 1948, administration of the Fort was transferred from the Dept. of Public Works (where it never belonged) to the Attorney-General's Dept. A former RCMP

officer, E. E. Scott, who is a fine man dedicated to reform, was appointed inspector of jails for the province. Since Scott's appointment, minor improvements have been made at the Fort, but it still ranks as one of the nation's most productive criminal factories.

In the federal prisons (there are ones at New Westminster, Prince Albert and Stony Plain, Manitoba, in western Canada) a genuine attempt is being made to reform the people who fall prey to a life of crime. Notable success is being made. Not the least cause of this is that the greatest care is being taken in the appointment of guards. Moreover, federal penitentiary guards now undergo training at Ottawa, which is in sharp contrast to the method prevailing at Fort Saskatchewan, whereby men from the surrounding farms are usually recruited for prison duty.

John Howard Society

The John Howard Society has been doing its level best to aid in the restoration to a law-abiding life the prisoners who leave the Fort. Yet they are sorely handicapped. In 1949 the Society was only able to extend \$3,000 in aid to released prisoners, and they deserve more public support.

Thousands of words have been written about the awful failure that has been made of the administration of Fort Saskatchewan. The only thing that can ever correct this failure is a full-fledged investigation by a Royal Commission that will at last bring out for all Albertans to see, a true picture of conditions inside the Fort.

Another article on this subject will appear next week.

This Albertan's Dreams Come True

What would take Felix Meunier of Morinville, seen here, 10 years or maybe a lifetime to accomplish, is being done for him in a few weeks as a modern version of the Cinderella story. The Morinville Agricultural Service Board has selected his farm as an experiment in modernization and improvement. With building supply firms co-operating, his farm will soon be a showplace of Alberta.

Hunting Season Opens Sept. 15

The big game hunting season is scheduled to open Sept. 15 in Alberta and there is good news for hunters.

Provincial game branch authorities report a good supply of elk, deer and goats for the apertament to track down.

The season opens Sept. 15 for those with special permits to shoot in the remote areas of the Athabasca, Clearwater and Brazeau forests.

The hunters will be allowed one male or female goat, a male sheep and an elk or a deer.

For special permit holders, the season will last until Oct. 31. For others the season will start Nov. 1 and continue until Dec. 15. Only sheep are reported "rather scarce."

10,000 Attend Elk Point Bridge Opening Day

By NANCY CONFORD

A large crowd, estimated in the thousands, attended the historic Elk Point bridge opening on Wednesday, June 7th.

Ferryman Ole Jacobson took the old ferry on its last trip carrying the Honourable D. B. MacMillan, minister of public works, across the river to do the honors, cut the ribbon and officially declare the new bridge open for use.

The mammoth parade which opened the well-planned program depicted the history of the west, with the costumed Indians, yokes of oxen, mules, wagons and buggies giving the realistic touch of the early days.

Two fat steers and a pig were barbecued and served free of charge to thousands of customers.

Shirley Gamble, talented young Mannville singer, took part in the grandstand performance, delighting the capacity audience with her rendition of "Bluebird of Happiness." Other items on the program included selections by the Vermilion boys' band and male choir, Dewberry pipe band, Saddle Lake Indian dances, Ukrainian folk dances, boxing and an outstanding acrobatic performance.

A magnificent fireworks display in the evening brought the day's program to a close.

Scientists have checked the relationship between a cricket's chirp and the temperature and the general rule is to count the number of chirps a cricket will make in 14 seconds and add 40—the result is supposed to approximate the temperature in Fahrenheit degrees. Warmth up to a certain degree—accelerates frequency of the chirps.

ATA To Handle Salary Disputes

An estimated twenty salary disputes between Alberta teachers and school boards will be handled by the ATA provincial executive, says Eric S. Ansley, of the Alberta Teachers' Association.

Mr. Ansley stated that new salary agreements are coming in daily

but that quite a number of negotiations between teacher representatives and school boards have resulted in deadlock. In cases where the local school boards and the ATA are unable to reach a satisfactory agreement, the dispute is referred to conciliation.

A recent ruling under the Alberta labor act has simplified the procedure under which the ATA can officially represent the teachers in salary disputes.

Some of the recent disputes that have been referred to conciliation are the school divisions of Stony Plain, Wetaskiwin, Olds and Lethbridge, as well as the school boards at Jasper Place, Beverly, Bellevue and Edmonton.

It was announced recently that the provincial government has certified the ATA as the bargaining agent for the teachers of Edmonton and Calgary.

Scientists are exploring the possibility that the moon may be responsible for earthquakes.

LABOR AGE DROPPING

Later school-leaving ages, family bonuses, retirement plans and old age pensions have contributed to a reduction in Canada's working population.

This is the observation in the current Monthly Commercial Letter of The Canadian Bank of Commerce, which discusses trends within the working population over the past fifty years.

The letter point out that, as unemployment is widely used as a measure of business activity, it is important that the make-up of the Canadian labor force and its movements should be better understood.

Motion is the chief characteristic of the labor force. Its composition changes by age groups, occupational shifts from countryside to town, or from more settled areas to those where new resources are being developed.

The most striking occupational shift has been that from agriculture into manufacturing. Fifty years ago two out of five worked on farms and one in six in manufacturing; at the present time one in five is engaged in agriculture and one in four in manufacturing. Seasonal movements of farm workers cover a growing number of types of crop and the international exchange of seasonal farm labor is now common.

All these forces have produced an employment picture at the present time along the following lines: out of a total population of 9,679,000 citizens above the age of fourteen years, there are 5,108,000 either gainfully employed or seeking work; nearly four out of five of this group are male, and by far the largest age group (44 per cent) are in the 25-44 year bracket; over three out of five live in the more industrialized provinces of Ontario and Quebec; about one in five is normally engaged in agriculture; and almost a third are unskilled workers.

There is at present a tendency for the labor force, both in this country and in the U.S., to increase faster than new jobs become available. This is partly the result of the increase in output per worker, which is steadily rising owing to the huge capital investment of recent years in improved plant and equipment. If, therefore, the population continues to rise at its present rate, and if living standards are to be maintained, it is obvious that available jobs will also have to increase.

Current trends suggest the need for developing further investment opportunities and expanding our markets, both at home and abroad.

King's Colors Presented to RCAF

Air Marshal W. A. Curtis, chief of the air staff, receives the King's Colors from the governor-general in the first ceremony of its type in the history of the RCAF. A huge Ottawa crowd watched the performance.

Survey Settles 'Mannville' Question

In case you're writing a letter down to Mannville, don't worry about the much-discussed proper spelling of word, because it's been finally settled by an economic survey of the town just completed by the provincial government.

And they've decided it's "Mannville."

According to the survey, which covers all features of the town and its history from the early days, the town was named after J. D. Mann, a contractor with the Canadian Northern Railway, now the C.N.R.

Mannville was the site of the first district hospital in Alberta, opened in 1918. Dr. J. D. Heaslip, who was instrumental in establishing the hospital, is now superintendent of the General hospital in Calgary.

The hamlet was incorporated as a village in 1906 with D. B. McLean as mayor and councillors W. M. McIntosh, J. E. Burch and W. Houston. Seven years before, the first settlers reached the district by ox team from Edmonton.

After nine years on the supreme court at an annual salary of \$25,000, the late Justice Frank Murphy left an estate in Washington of \$510.

Productivity Cuts Working Hours

The governing body of the International Labor Organization has requested the International Labor Office to prepare a report on the reduction of working hours as a consequence of rising labor productivity.

The report will be presented to the governing body's next session with a view to the possible inclusion of the question in the agenda of the general conference of the I.L.O. in 1952.

CANADIANS HAVE MORE MONEY IN BANK THAN EVER BEFORE

MONTREAL.—More Canadians have more money in the bank than ever before, and the average account is higher, it was stated this week by J. U. Boyer, president of The Canadian Bankers' Association.

Speaking at the annual meeting of the Association, Mr. Boyer detailed the growth of banking in recent years, particularly the growth of deposits and loans, and coupled with it a suggestion to Canadians to invest in the profitable development of the abundant resources and rich opportunities of Canada, and thus contribute to the national enrichment in the way of jobs and production.

The number of bank shareholders is on the increase, Mr. Boyer noted, going up from 50,000 before the war to 60,000 today. Dividends paid in 1949 averaged \$252 per shareholder. For every dollar paid in dividends in 1949, the banks paid \$6.30 in salaries and wages, 73 cents in contributions to staff pension funds, \$3.64 in interest to depositors and \$1.43 in taxes, including municipal.

Referring to job-creating investment opportunities in Canada, Mr. Boyer gave as an illustration the \$150,000,000 in venture capital being spent by 240 companies in oil development in western Canada, particularly Alberta, this year. Much of this risk money came from outside Canada, and in its wake flowed jobs, people, new industries and the expansion of old industries. There will be \$125,000,000 in new buildings in Alberta this year, as a direct result of the oil development—stores, houses, churches, schools, all making jobs and production.

"In the new discoveries of oil in western Canada," Mr. Boyer continued, "the mineral finds of Chibougamau, the iron and titanium of Quebec and Labrador, in the

uranium of the great northwest, the gold and copper and other minerals of northern Ontario and Quebec, British Columbia and Newfoundland and also in the farms of the prairies, the forests and fisheries elsewhere in Canada, are opportunities almost fabulous.

Solution To This Week's Puzzle

SAFE IN CANADA after 10 years of wandering in Europe, Stanislaw Sawzest is the last of Polish refugee children to arrive in Canada. Taken to Russia from his homeland at the beginning of the war, he endured the march of General Anders' army to Persia in 1942.

150 Campaigns Support Spring Cancer Drive

The 1950 cancer campaign in northern Alberta is being waged by 110 separate campaigns in northern Alberta districts. The campaigns are sponsored by Boards of Trade, Canadian Legion branches, I.O.E. chapters, women's institutes and other organizations.

There are 14 more campaigns this year than in 1949. The most southerly point where a campaign is under way is Innisfail—the most northerly is Fort Radium, near the Arctic Circle.

This year's objective for northern Alberta is \$60,000. On Saturday, May 20, country points had raised \$7,357.00.

The Vermilion district contributed \$850 last week, Ponoka \$667, Holden, \$416, Whitecourt \$175, Fort Saskatchewan \$160, Pembroke \$72 and Abee \$47. Two donations were given in memory of deceased friends by their neighbors—\$41 in memory of Mrs. Elizabeth Howie of Ferintosh, and \$13 in memory of Mrs. Fred Norman of Bashaw.

Earlier in the campaign Stettler contributed \$1,154, the towns of Waterways and McMurray \$555, Sedgewick \$514, Vinton \$172, Daysland \$157, Kinuso \$150, Elk Point \$136, Fort Smith and Fort Fitzgerald \$123, Erskine \$107, Chipman \$98.00, Kinsella \$43 and Hay Lakes \$40.00.

Letter to Louisa

Secret Engagement Is Young Couple's Problem

Dear Louisa.—I am coming 17 in July and I am to be engaged. I would like to know if it is necessary for my boy friend to ask my parents, or could it be done just between the two or us?

Answer—I certainly do not think it wise for you to become engaged to any boy without your parent's knowledge—simply for your own protection.

A secret engagement is not hard to break off, and there is always the possibility that the boy would not consider he had as much responsibility toward you when no one knew of the engagement except yourselves.

But no matter how much you two love each other, do you think it wise to do such things on the side? If you are proud of your sweetheart you should certainly not want to keep your engagement secret.

—Louisa.

Dear Louisa—

I am a man of seventy and am in bad health. My wife and I had a comfortable home which we had lived in ever since the first year we were married and were very happy.

About a year ago, my wife died suddenly and the children insisted that I sell the home and come and live with them. They all wanted me and I had to agree to divide my time with them.

Well, it hasn't worked out well at all. I feel that I am in their way and what I want is a quiet place to stay and someone to take care of me. I could get a small apartment but I haven't the money to get a good practical nurse. Each one of the children has borrowed from me so that all I have left is a small pension that I get each month. I hate to ask them to repay me as I have been staying with them for a year. What would you do in such a situation?

Grandpa—Vt.

Answer: You were certainly foolish to part with your "nest egg."

aid to the cancer campaign. \$56.00 was raised in Lac la Biche. Boy Scouts at St. Albert made \$28 and Girl Guides at Fort Saskatchewan \$21 on tag days, and another is planned for Leduc on Saturday, May 27.

I think your best bet now is to find a good old peoples' home. There are a number of these run by different churches and societies. Your pension may be sufficient to pay your way in a place of this sort and you will have a quiet place with medical care and other old people for companionship.

You can then visit your children for a week or so when you feel like it and come back to your own little place when you get tired.

—Louisa.

Salvages Oil

A process to salvage valuable oil and wax from the settlings, or waste material, in the bottom of petroleum storage pits and tanks has been developed by the Bureau of Mines, in co-operation with several oil companies. A test with 2,000 barrels of waste stored for several years in an open pit, recovered nearly 600 barrels of clean oil containing 15-18 per cent of valuable microcrystalline wax.

20th Century FARM NEWS

FOUR CONVENTIONS PLANNED BY FUA DURING SUMMER MONTHS

Four FUA district conventions will be held in June and six in July, announces Carl J. Stimpfle, president of the Farmers' Union of Alberta. The conventions are attended by delegates from the locals situated within the areas concerned for the purpose of electing district officers and a district director who takes his place on the provincial board for one year.

First convention was held at Hanna on Wednesday, June 14th, with delegates from locals situated in district eleven attending. Present district director representing district eleven is J. Cameron of Youngstown.

The following week, conventions will be held at Olds June 23 for District 10; Stony Plain June 24 for district five and Ponoka June 26 for district nine. George Roth of Red Deer is director for district ten; C. D. Fuhr of Stony Plain for district five and H. Lembez of Lacombe for district nine.

July conventions are scheduled as follows: District seven, Wainwright, July 4; District eight, Camrose, July 5; District four, St. Paul, July 7; District six, Vegreville, July 15; E.C. Block, Dawson Creek, July 18th; District one, Grande Prairie, July 20, and district two, Peace River, July 22. Convention for district three is scheduled for August 5 at Athabasca and the conventions for district twelve is scheduled for the fall, date and place to be announced later. Mr. Stimpfle, FUA president and Mrs. R. B. Gunn, FVUA president, will be in attendance at all the conventions.

BOOK PRAISES NEW CANADA

Canada offers an opportunity to its citizens second to no other country in the world, according to a booklet published this week by the Canadian Chamber of Commerce.

The booklet, entitled "Canada—Land of Hope," reviews the history of the country in general terms and predicts that Canada's best days are still before her. "Canada has not become great by chance," the publication comments, "but rather because there has been here created and nurtured an atmosphere in which the will and energy of peoples from many lands have been allowed full expression within the limits of the public welfare."

The booklet points to the new iron discoveries in Quebec and Labrador, to oil in Alberta, to Canadian achievement in the field of atomic research and to the initiative and industry of Canadian youth as evidence for an optimistic view of the Canadian future.

Former Czar Man Now At Thorhild

THORHILD.—Elmer Gunderson, formerly of Czar, has arrived in Thorhild to assume assistant management of the new modern theatre here. This booming farm community, which 30 years ago was only a one-building stop on the railway, now boasts one of the most modern theatres in the province.

Walter Bachynski is manager. Mr. Gunderson lived for quite some time at Provost, after leaving Czar. Mrs. Gunderson and family of five girls will move to Thorhild in July.

Improvements Seen In Crop Prospects

The third 1950 crop report of the Alberta Agriculture Department says that soil moisture conditions are good and recent rains have considerably improved crop prospects.

Wheat seeding is now completed and most of the coarse grains will be in the ground by next week. Crops are in fair condition despite the dry spell and prospects have improved in central and northern Alberta with the recent rains.

Height of wheat is from one to six inches and coarse grains are up to four inches. Around 50 per cent of the grass and legume crops have been sown, but insufficient surface moisture in the drier areas has caused delays in this operation.

Comparatively little damage has occurred to date other than extensive soil drifting. Slight wireworm activity is indicated in some areas and the sweet clover weevil is causing some concern. Grasshoppers have done little damage so far with everything in readiness for any outbreak that may occur. Speedy control of this situation is anticipated.

Condition of livestock is generally fair. Hay and pasture crops are poor to fair only but improvement is anticipated following recent rains.

Lack of rain and lower than average temperatures have resulted in slow pasture growth and a decrease in milk production.

New Basis For Wheat Purchases

British purchases of Canadian wheat in the 1950-51 crop year will be made within the framework of the International wheat agreement. The United Kingdom has undertaken to take 300,000 tons of Canadian flour at competitive North American prices.

The eyes of a human being reach their maximum size at about 10 years of age.

Wife Who Slew Mate Appeals on Sex Grounds

CHARLOTTE, N.C. — Still insisting that she shot her husband because of his abnormal sex desires, thrice-married 33-year-old Charlotte Lanier McCorkle is appealing her conviction for second-degree murder and the 9-to-12-year sentence that went with it.

All through her trial the shapely redhead never wavered on that one point—that she had shot Edgar McCorkle, her bridegroom of four months, only when he made it apparent that he was going to force her to submit to acts of sexual perversion which she had come to dread.

On this occasion, she said, he asked her to come over and sit on his bed. "Then he started," she testified, "and I knew what he was going to try again. I don't know what happened then."

She said she couldn't remember where the gun came from, or who fired it, but did recall two shots and her husband's slumping to the floor.

The courtroom, presided over by Judge Allen N. Gwynn, was thronged with curious crowds, including many women, listened intently to Charlotte's detailed testimony.

"When Ed couldn't satisfy his sexual desires through normal intercourse," Charlotte told the courtroom, "he would become a madman. He forced me to unnatural sex acts by overpowering me and strapping me to the posts of my bed."

She said that she had normal sex relations with McCorkle, 46-year-old laundry executive and her former boss, before they were married, but that soon afterward he became violent, beating and otherwise mistreating her in his moments of passion.

Prosecutor Basil L. Whitener, however, depicted Charlotte as a hardened woman who shot Mc-

Corkle because he threatened to leave her. As McCorkle's secretary, Whitener charged, the redhead lured him from his former wife, married him the day after his divorce and shot him less than four months later.

Whitener insisted that Charlotte immediately after the slaying, confessed to shooting McCorkle as he slept. Charlotte denied such a confession, but testimony showed there were bullet holes in the sheet and spread on McCorkle's bed.

Whitener asked the death penalty but Judge Gwynn made possible the second-degree murder verdict and a lesser sentence—by telling the jury it should exclude a first-degree charge if it found that Charlotte killed her husband in a fit of passion.

Immediately after pronouncing sentence, Judge Gwynn himself dictated Mrs. McCorkle's appeal to the State Supreme Court, which will review the verdict and sentence.

When It Comes to Bales, the NEW HOLLAND LINE TOPS THEM ALL!

Outsells the Entire Industry 2 to 1.

17 REMARKABLE FEATURES — 10 of them exclusive New Holland developments — have gone into the "76". Here is a machine that has a top capacity of up to 10 tons an hour. The "76" produces a better bale, too, firmly packed and tied under compression and sliced like bread for scientific feeding.

- Self-feeding—self-tying.
- Uses high tensile strength twine.
- No wires to stick or tie.
- No blocks to drop.
- Automatic bale slicer.
- Floating type pick-up unit.
- Spring lines easily replaced.
- Bale weight easily regulated.
- 1 1/2 seconds to divide and tie a bale.
- Automatic bale counter.
- 22 h.p. auxiliary engine.
- Can be used stationary.
- Produces bales 16" x 16" x 16".
- Handled by any 2-pow tractor.

Let us prove that this great New Holland line stands head and shoulders above all the rest — in capacity... in performance... in every having operation!

Receives GMC Dealership

REDWATER.—Walter P. Maloway, well-known local garagaman, has received the Redwater dealership for General Motors cars and trucks. It is expected that a good supply of the vehicles will be on hand shortly.

Evelyn Onusko Wed To Morley Kuzyk

REDWATER.—St. Joseph's Greek Cathedral in Edmonton was the setting of a pretty wedding last week when Evelyn Lily Onusko was united in marriage with Morley Kuzyk. The bride is the daughter of Mr. and Mrs. J. Onusko, of Redwater.

A traditional Ukrainian reception was held at the home of the bride's parents. The couple will honeymoon in California, and will then take up residence in Colorado, where the groom farms.

Oil Shipments

Oil shipments by tanker and barge are being speeded up by radar. On barge operations particularly, radar helps prevent propeller damage by warning against the approach of heavy driftwood and sand bars. Barges also use ship-to-shore telephones to keep oil storage terminals advised of expected arrival time.

WANTED, MISC.

(Continued)

WANTED—All your old shoes to be rebuilt into handsome, comfortable footwear to give you miles of carefree walking service. Send them to CORONA SHOE RENEW, 10756 Jasper Ave., Edmonton. C-Jy10-tf.

DIFFERENCE BETWEEN NEWS AND EDITORIALS

In any newspaper, there's a big difference between news stories and editorials.

Editorials express the opinion of the newspaper, and are found on the editorial page. News stories consist of reports on what people in the community are doing.

It's a newspaper's duty to give full and impartial coverage to district activities, and to report on current developments, whether or not the paper agrees with 'things that go on in the district. To do otherwise, would be guilty of wilful suppression of the news, and would mean the end of a free press.

Church Discusses Stand On Alcohol

MONTREAL.—The general assembly of the Presbyterian church this week registered a protest against abuse of Christian liberty through excessive use of alcohol.

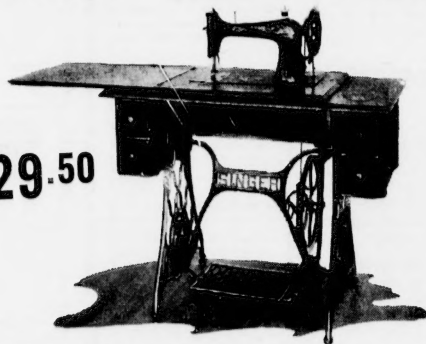

The report of the evangelism and social action board, presented by Rev. E. C. McCullagh of Dunnville, Ont., recommended that the nature and function of alcohol be taught in public and high schools and universities as well as in Sunday schools.

The report said: "We recognize that the use of alcohol in many instances is due to a failure of the individual to meet the outward and inward stresses of a personal and modern life."

Snow falls toward the earth 12 months of the year but in summer, in coming down it changes to rain, except on high mountains.

Graduation Party . . .

(Continued from Page 1)

other students who have done good work and therefore deserve honorable mention:

Marcelle Curial, for her outstanding application.

Laurent Brodeur and Jean Atkinson for their co-operation in organizing sports.

Chester Cunningham and Roy Sylyski for winning cups in the fall track meet.

Margaret Joyal and Nan Maloney—Margaret for helping to keep the books of the Students' Union and Nan Maloney for acting as my personal secretary.

All the students who took part in the festival.

Gerald Vague, Pat McDonald, Gordon Atkins, John Bokenforth, Grace Gravelle, Rene Morin, John Bocock, Wilma Roberge, Dorothy Terrault, Helen Anthierien, Andre Rouault, for their good steady work.

On behalf of the staff I wish to thank the students for their co-operation. I do wish to thank as well the local school board and Superintendent Scott for the wonderful co-operation and support. I do feel that we are completing a successful year. I am sure that all you parents want to give your children the very best education. This is your school for your children. In the coming year all the members of the staff and I would like a closer union with the parents. Once we get to know you better, we will understand your children more and therefore get better results. The method that we have at our disposal is the Home and School association. I therefore solicit you to come in greater numbers. The staff is only too glad to discuss the curriculum with you to answer any questions you may ask. I want to take this occasion to thank all the members of the staff for their co-operation.

In closing I wish to thank those who decorated these two rooms, the Home and School association for sponsoring this evening's entertainment and all the organizations who so willingly offered the awards I do thank you, Mr. Scott, for coming out here this evening. The social entertainment followed by a program outlined by Mr. Raboud and Mr. Fitzpatrick.

Mr. H. Vague called square dances, bingo dances, circles and promenade.

Mrs. Kennedy played for some dances and the recorder for others. A bountiful and delicious lunch was served, convened by Mrs. Ross.

For the first graduation dance for many years' I'm sure all had pleasant memories to take home. Next year we hope it will be bigger and better.

Service Board Meets

(Continued from Page 1)

proposed and what was originally planned. He advised that one of the sponsors has had to resign and he believed that this would now clear the field for more to participate. Mr. Laub also spoke to the meeting as well as Miss Whaley. A general discussion was taken by all attending the meeting, several suggestions were made.

The chairman, Mr. Walker, advised that the project should be continued and that a committee of three appointed in the organization of the day and to arrange for the raising of funds that may be required.

It was also announced that the department of agriculture had attended to the planting of the trees and that the municipality have arranged for the back-sloping of the roadway; that several other works had been started in preparation for the field day, but it would be impossible to have all this in readiness for the 19th and this was one of the causes of the postponement, as well as other reasons as hereinbefore mentioned.

It was proposed that a committee be formed and this met with the general approval of the meeting; the committee as formed would be called to meet again on Thursday, June 22, when the general plans of the field day could be laid out and as soon as all plans were ready, the date of the field day can then be set and announced as to when the same will take place.

On motion of J. Schafers the

BILBY TOPICS

BILBY. — A wedding dance in honor of Mr. and Mrs. A. E. Hansen (nee Marjorie Hansen) eldest daughter of Mr. and Mrs. John Hansen will be held on June 16 at the Bilby hall. Everyone welcome.

Mrs. C. Looker gave an interesting talk to the Women's Institute

on the highlights of the Blue Print for Action Program, at the home of Mrs. John Hansen on June 7.

Next WI meeting will be held at Mrs. R. Hodgson's on July 5.

A nice box of used clothing and \$19.00 in cash was sent to the Winnipeg flood relief victims recently by the Women's Institute

efforts.

Mrs. H. Gadbois and small daughter, Rose-Marie were visiting Mrs. C. McFaul for the past two weeks.

The softball game between Heatherdown and Bilby was rained out on Sunday. Better luck next time, boys.

The Little Tractor with the Stout Heart

This new small Massey-Harris Pony Tractor is another example of Massey-Harris leadership in the tractor field, the development of this new model, built to sell at the lowest price possible, is the result of many years of research and experiment by Massey-Harris engineers. In it the owner of small acreages and market gardeners will find all the practical advantages that will enable him to place his operations on a real profit making basis. A full line of tools to team up with the Pony is available for all field work.
